PROFILE SUMMARY

I'm a student at Bath Spa University with nearly one year of experience in frontend development. I'm skilled in languages like python, JavaScript, CSS, and HTML, along with new tools I'm learning like Tailwind CSS, GSAP, and Loco Motive. I'm also proficient in frontend dev and have experience with WordPress, Figma, and Photoshop. Throughout my journey, I've actively developed numerous frontend projects, honing my skills and creativity in crafting user-friendly websites. Beyond coding, I'm comfortable with Microsoft Word and Excel, and I enjoy video editing in my spare time. I'm passionate about creating user-friendly websites and always eager to learn new skills.
